commitment to individually authentic participation is an important element of successfully inclusive communities and societies not only characterized by diversity such groups have organized themselves to draw upon that diversity for problemsolving and synergistic creativity at the same time and sometimes in conflict with that belief most societies identify particular skills and abilities as singularly important to legitimate adult participation and therefore as generalizable these cultural tools are likely to dominate the established curricula of schools mathematics language literacy science one method for ensuring that all citizens have access to these participatory tools is to entrench them in public policy well meant though they might be for some children such policies negatively impact their authentic participation a tension arises then between the overall intent of the policy and the immediate lived experience reworking a policy implies an examination of whether or not the lived experience of those affected by the policy is congruent with the policy s deepest intent this work explores the impact of early literacy intervention policies on young children who struggle with reading and writing intertextual interpretation layers the writings of charles taylor and jean vanier with the experiences of growing up in a mennonite community to illuminate conditions that support the development of authentic interpretive and representational modes

education is intimately connected to many of the most important and contentious questions confronting american society from race to jobs to taxes and the competitive pressures of the global economy have only enhanced its significance elementary and secondary schooling has long been the province of state and local governments but when george w bush signed into law the no child left behind act in 2002 it signaled an unprecedented expansion of the federal role in public education this book provides the first balanced in depth analysis of how no child left behind nclb became law patrick mcguinn a political scientist with hands on experience in secondary education explains how this happened despite the country s long history

of decentralized school governance and the longstanding opposition of both liberals and conservatives to an active reform oriented federal role in schools his book provides the essential political context for understanding nclb the controversies surrounding its implementation and forthcoming debates over its reauthorization how the struggle to define the federal role in school reform took center stage in debates over the appropriate role of the government in promoting opportunity and social welfare he places the evolution of the federal role in schools within the context of broader institutional ideological and political changes that have swept the nation since the 1965 elementary and secondary education act chronicles the concerns raised by the 1983 report a nation at risk and shows how education became a major campaign issue for both parties in the 1990s mcguinn argues that the emergence of swing issues such as education can facilitate major policy change even as they influence the direction of wider political debates and partisan conflict mcguinn traces the republican shift from seeking to eliminate the u s department of education to embracing federal leadership in school reform then details the negotiations over nclb the forces that shaped its final provisions and the ways in which the law constitutes a new federal education policy regime against which states have now begun to rebel and that only by understanding the unique dynamics of national education politics will reformers be able to craft a more effective national role in school reform

master s thesis from the year 2012 in the subject pedagogy miscellaneous topics grade ma mekelle university language english abstract education has received increased attention by the current government of ethiopia in the recent years because it is believed to be a long term determinant of sustainable development to this extent the importance of educating people to ensure a country s continuous competitiveness and sustainable development is unquestionable because expanding and reforming higher education and research in a country will contribute significantly to alleviate problems such as suffering from relatively slow social and

political progress and becoming increasingly marginalized from the world economy the purpose of this study was to examine education quality of input and process factors more emphasis on college resources and infrastructural perspectives and the role of quality assurance in ensuring quality education in mekelle university particularly in adi haki campus in line with the research questions and objectives both qualitative and quantitative methods of data collection have been used for this study to find out the research questions survey has been conducted with two questionnaires for teachers and students 121 students and 56 academic staff members of the selected colleges beside this four individuals i e academic v president of mekelle university and quality assurance head offices of the selected three colleges has been interviewed to support the data which is collected through quantitative way after collecting data and information and analyzing it has found that educational quality of the selected colleges are not providing quality of education and the reason is that lack of motivation inadequate e learning materials poor salary and allowance package pitiable research inputs and outputs shortage of financial and lack of managerial capacity availability of corruption political intervention less educational qualification of instructors i e below the required minimum standard to give instruction at degree level and difficulty of conducting the teaching learning process effectively because most of them were not acquainted with the concept of pedagogy are among the constraints which were deduced by the respondents additionally students satisfaction level is low on campus facilities library and internet facilities and academic competency of their instructors
