This is a critical history of spy fiction film and television in the United States with a particular focus on the American fictional spies that rivaled and were often influenced by Ian Fleming's James Bond. James Fenimore Cooper's Harvey Birch, based on a real-life counterpart, appeared in his novel *The Spy* in 1821. While Harvey Birch's British rivals dominated spy fiction from the late 1800s until the mid-1930s, American spy fiction came of age shortly thereafter. The spy boom in novels and films during the 1960s, spearheaded by Bond, heavily influenced the espionage genre in the United States for years to come, including series like *The Man from U.N.C.L.E.* and *Matt Helm*. The author demonstrates that while American authors currently dominate the international spy fiction market, James Bond has cast a very long shadow for a very long time.

Being modern and manly in today's world isn't always easy. Do you know how to tie a bow tie, mix a martini, or make a potato gun? Do you know when to get married and how to break up, or the difference between a bock beer and a bitter? Do you know which urinal to choose, or how to start a fire with a coke can? The answers to every man's burning questions are within these pages, from the morning wet shave to the whiskey night cap, from hunting deer with a 30-06 to wooing women like 007. At a time when the sexes are muddled and masculinity is marginalized, *The Man's Book* unabashedly celebrates maleness. Organized by subject in a man-logical way, it's the go-to guide for anyone with a Y chromosome.
